**Subject:** Dan Powell - Annual Reports & Cherry Hill bond status

Dan Powell dropped off several annual reports late this afternoon (3/14/03) for his operation (Emery Industrial Resources, Inc. - Cherry Hill Quarry) and for Quality Building Stone, Inc. - Amis#1, Martin-Brown/Wilford#2, Snow White, and Red Chief mines). He signed all 5 annual report forms as the "agent" for those two companies.

He apologized for being late, but said he had some difficulty getting all of the information in a timely manner from Quality Building Stone for the 4 small mine sites.

He informed me that he is still trying to get his bond to us. He said he spoke with his bonding company broker recently and that he was informed that they have a couple insurance bonding companies they are trying to work with. He said he will call the surety bonding broker again next week for further updates.

*Joelle, please file a copy of this in the Cherry Hill mine file. Thank you.*
